Select how you would like to use AR

MARKER

AR presents on top of printed images.

Examples include:

- Product packaging
- Posters and magazines
- Documentation

SELECT MARKER

FACE

AR presents on top of any human face.

Examples include:

- Face masks and filters
- Product try-ons
- Face based games

SELECT FACE

SURFACE

AR presents on top of physical surfaces.

Examples include:

- Product visualisations
- Virtual people (avatars)
- 3D scenes

SELECT SURFACE

AROUND YOU

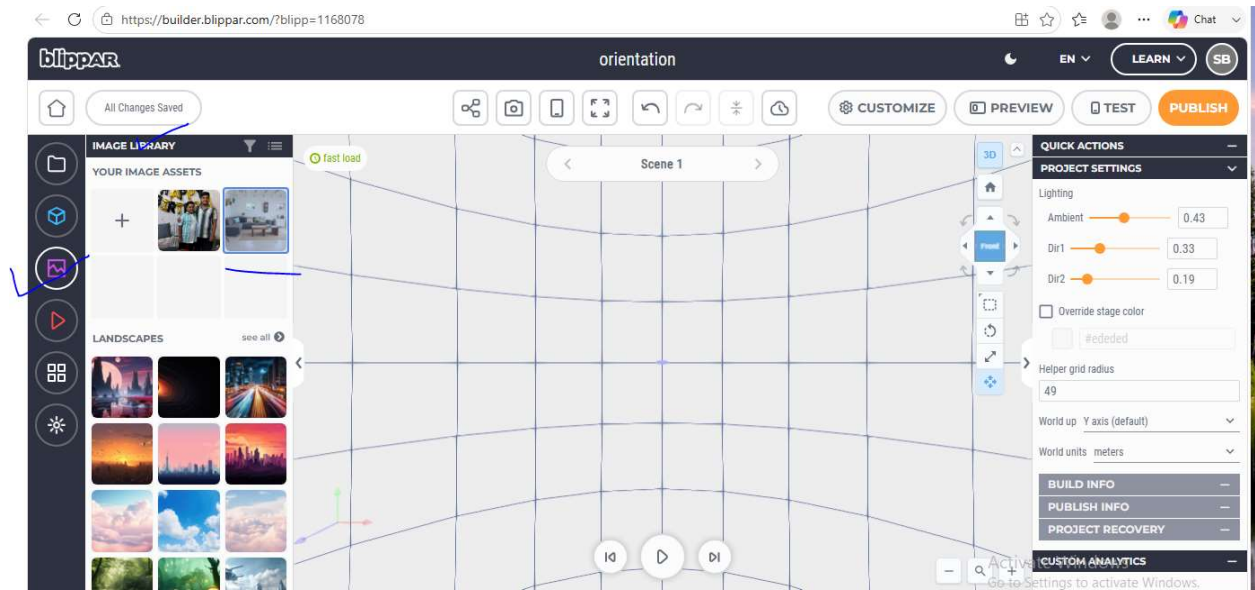

AR presents in the space around the user.

Examples include:

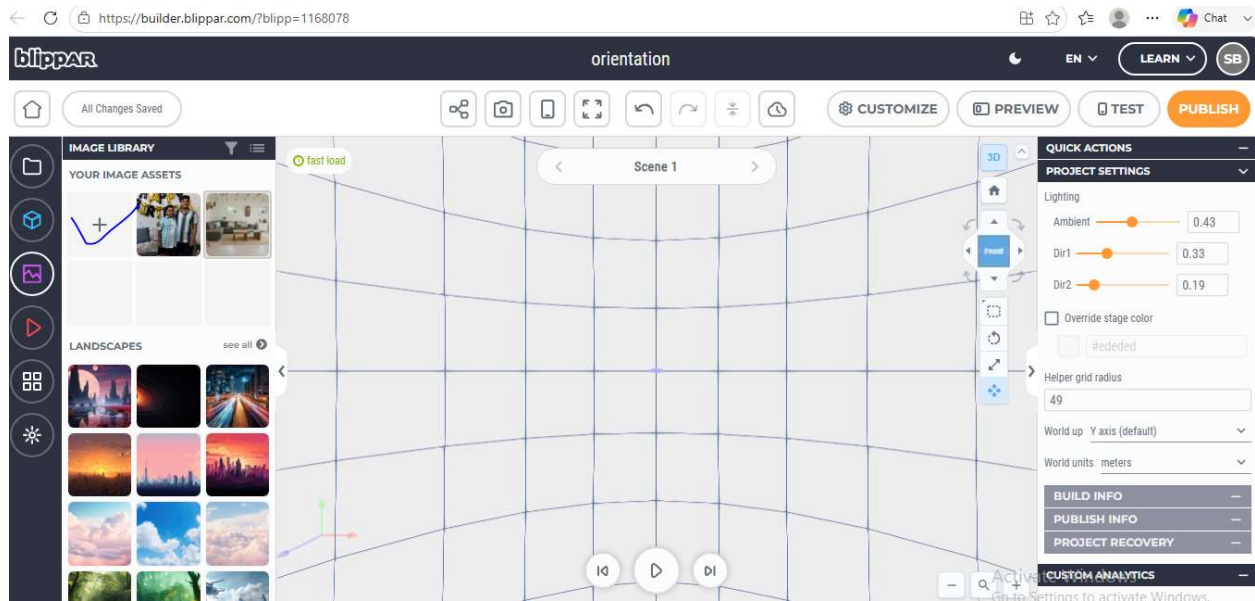

- Virtual environments
- Animated experiences
- Immersive games

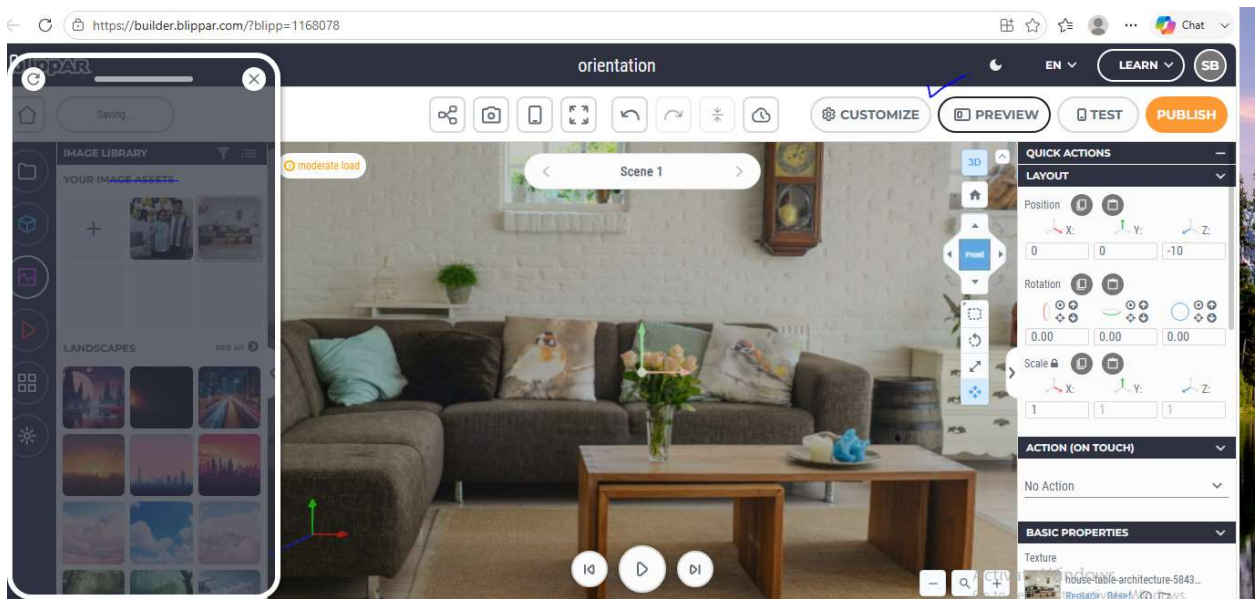

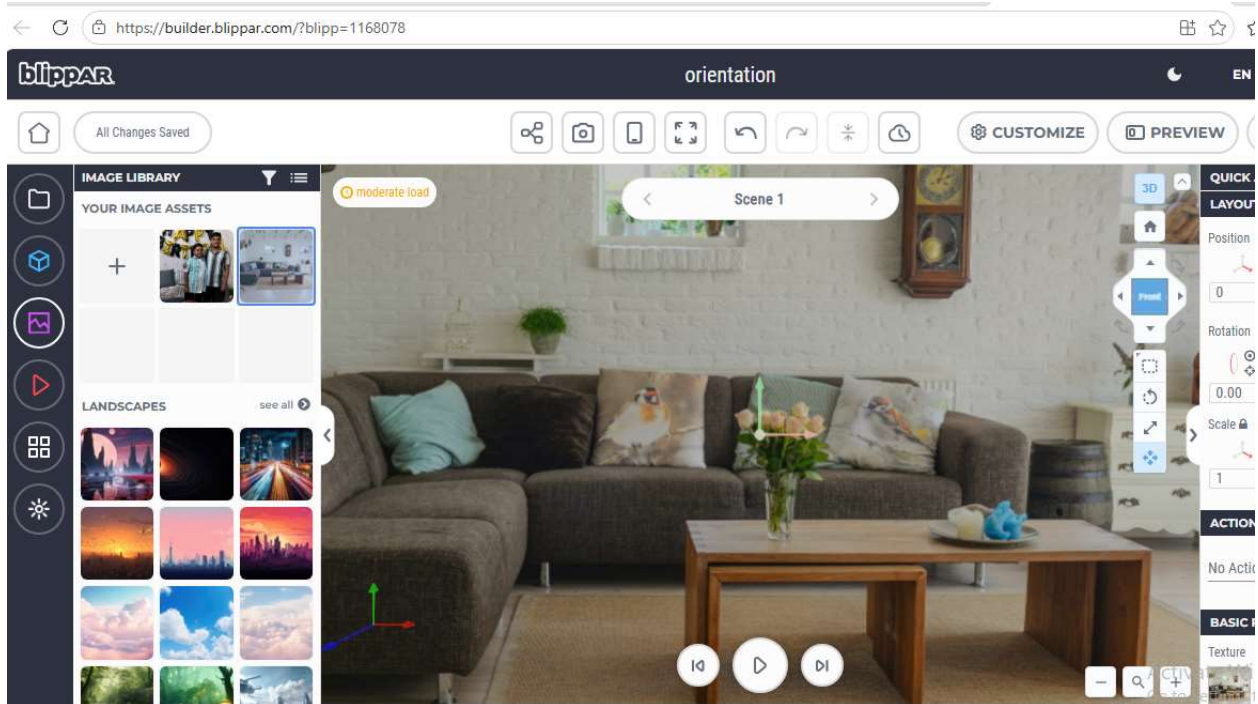

SELECT AROUND YOU

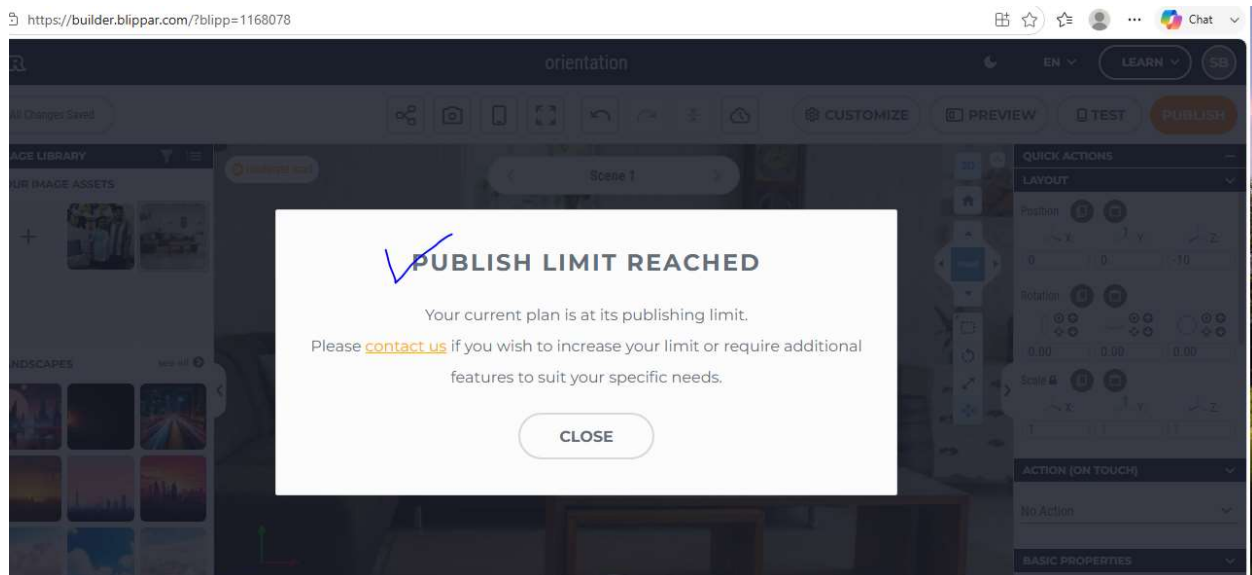

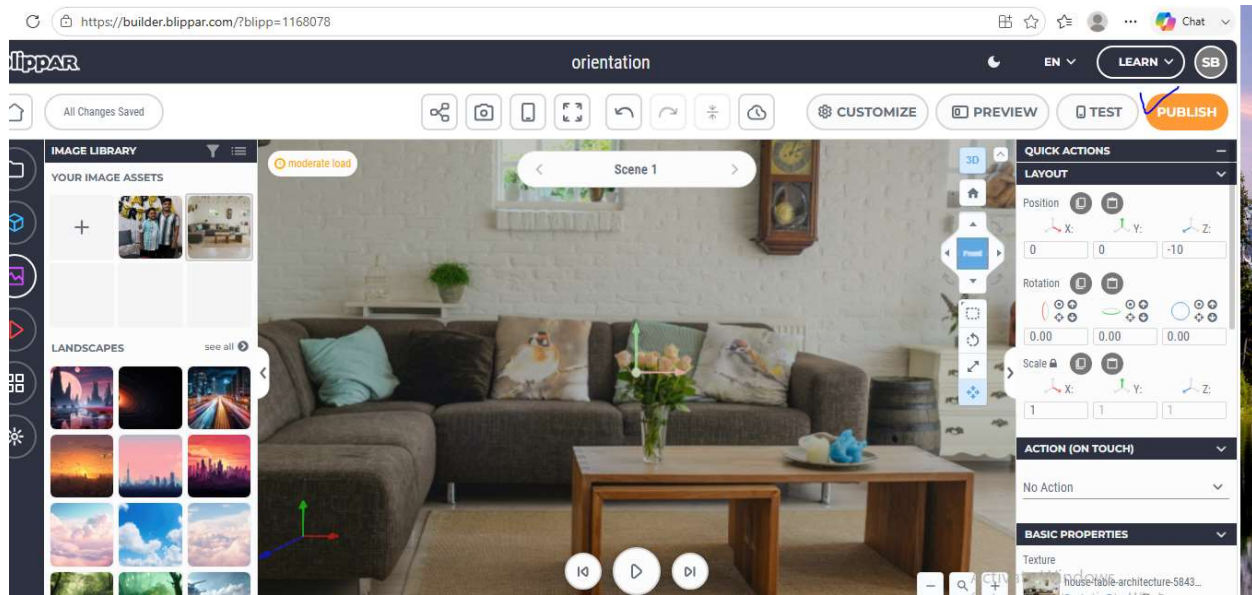

Activate Windows
Go to Settings to activate

We can upload any external image as well:
